SUMMARY

Full-time Computer Information Systems student at Portland Community College with 7+ years of prior hands-on electronics repair, calibration, and troubleshooting at Planar Systems. Methodical at diagnostics, following technical documentation, and training others, with shipped technical work to back it up: a live personal website and a published data-analysis project. Building toward IT support with a long-term focus on cybersecurity.

TECHNICAL SKILLS

Hardware & troubleshooting: electronics repair, calibration, diagnostics, Hypot testing, ESD protocols, quality assurance (FQC/FTO)

Systems & tools: Windows, Microsoft Excel, environment setup and troubleshooting (Anaconda, ODBC, JupyterLab)

Programming & data: Python, SQL, HTML/CSS/JavaScript

Documentation & process: interpreting work instructions and PDM, training/onboarding, Lean / continuous improvement

Learning: Tableau, cybersecurity fundamentals (via CIS coursework)

PROJECTS

Khaylub.com — Personal Portfolio (live)

khaylub.com

- Designed and shipped a live portfolio website, launched June 2026 ahead of schedule, using HTML/CSS/JavaScript with Three.js and Blender-authored 3D.
- Set up and troubleshooted the full build-and-deploy toolchain end to end and documented the fixes for reuse.

SQL → Python Analytics Pipeline

github.com/KhaylubThompsonCalvin/sql-python-analytics-pipeline

- Built and published an end-to-end data pipeline (SQL Server → Python / JupyterLab → matplotlib) from CIS277A coursework.
- Sanitized for public release with environment-variable credentials and documented setup and troubleshooting notes.

EXPERIENCE

Production Specialist — Planar Systems Inc., Hillsboro, OR

Dec 2017 — Aug 2025 · Full-time

- Troubleshooted, repaired, and calibrated advanced display systems and modular electronic assemblies.
- Performed precision Hypot testing, calibration, and diagnostics to ensure product integrity and safety compliance.
- Trained new employees on DL2/TWS cabinet calibration, LED module assembly, and chassis troubleshooting; led manufacturing projects.
- Interpreted PDM documentation and work instructions for accurate repairs; maintained rigorous ESD protocols.
- Collaborated cross-functionally on process improvements.

EDUCATION

Computer Information Systems — Portland Community College, Portland, OR

In progress (full-time)

Relevant coursework: Data Analytics (CIS277A)

Law Studies (attended) — University of Arizona, Tucson, AZ

2016–2017

CERTIFICATIONS & TRAINING

ESD & Calibration Certified (Planar, 2017–2025) · Hypot Testing Calibration Procedures · FQC/FTO Process · DL2/TWS Cabinet Calibration & Repair · PDM Proficient · Lean Manufacturing / Continuous Improvement

Next targets: CompTIA A+, Security+
